

# COLOR YOUR TEAM

## Your Custom Designed Team Tech Tops and Leggings

**Blank Shirt**

**Virtual Layout**

**Final Product**

The Color Your Team line is made from 100% polyester fabric, dye -sublimated\*, then cut & sewn to our specifications at a USA based facility. Create colorful modern day team wear for professional, college, high school, and junior teams.

This guide has examples of popular layouts to get you started, but don't let that stop you from getting very creative, we can print anything! Want help? Our in-house graphic design crew can help give your team a distinctive look.

\*Dye-Sublimation: A form of printing that involves using a printer to deposit sublimation-capable toner onto a transfer sheet. Heat and pressure are then applied to dye the substrate in full color.

## Solid Style

Clean and simple, the solid color scheme offers a powerful display of school colors and pride. The choice is your; left and right sleeves, legs and torso can all be the same or different.

## Side Bar Style

The classic and iconic side bar stripe. Whether dancing or moving fast this is sure to catch the eye. Break it up with text or add a accent stripe to give more color.

## Diagonal Style

Bold and colorful diagonal stripes will stand out. Two, three, or four colors will enhance this design.

## Fade Style

Take two colors and have them fade into each other for a dynamic sleek look. This makes a great backdrop for logos, burgees, or mascots.

# Custom Ideas

This example design features a solid main color torso with green fade on arms and legs. School name proudly displayed on the sleeve and down one leg. Mascot takes center stage on the back, while the team name adorns the front. A striking combination ensuring pride and recognition for the school team.

The sky is the limit on what you can design.
